

## Happy New Year

While we are starting the beginning of a new calendar year (2021), we are half way through our fraternal year. We are not seeing a letup in the Covid-19 requirements for the use of face coverings, hand washing, and social distancing. This means e-mail communication continues to be our life's blood. What this means is that you need to check your e-mail frequently and keep us informed if you are in need of anything. If you are NOT getting regular e-mails; that means YOU are not on the list. Send an e-mail to [kights2084@gmail.com](mailto:kights2084@gmail.com) to get on it. It is currently the best way to keep informed of zoom meetings and upcoming activities. I realize that many of you are still not comfortable attending Mass on Saturday or Sunday, however, several of us, including myself have not only attended but are helping with hospitality. You stand a better chance getting sick from the store than at Church.. Your soul will thank you; and so will your body.
