

KNIGHTS CORNER

December 10, 2023

St. Charles Council #2084

One of the things I was most happy to learn about when I became a Knight was our lending library in the lower level of St. Charles. I wasn't attending this parish back when it was open, so I didn't really know it existed until I went in to get things for a council meeting the first time.

Many of you probably know of its history, the hard work, and generous donations that went into it much better than me, and I can't thank those involved, especially my brother Knights who have run and maintained it, enough. But my understanding is that like many things it was closed up during the pandemic...and like any room in my house with the door closed more than open...well it got a little cluttered.

One of our greatest treasures as Catholics is how deep our faith is. From what I've seen, discovering the mysteries, the reasons behind why we do what we do, the authentic human lives of the saints, and the history of our Catholic tradition can be the spark that sets our hearts ablaze and the foundation that keeps us solidly confident in our mother church.

We're excited to let you know that the library is ready for use again! We hope to have regular hours that you can expect it to be open soon, but in the meantime if you see the door open before or after Mass please come in and sign out a book, CD, or DVD that speaks to you.
