

KNIGHTS CORNER

November 5, 2023

St. Charles Council #2084

This weekend we handed out bags for our annual Food for Families drive that we do right before Thanksgiving. 2 months ago we did a similar emergency drive because the pantries were running out of food and I once again want to thank the parish for its outstanding response. We realize these two collections are a bit closer together than we have done in the past, but given the emergency nature of the 1st one, the positive feedback we received from parishioners, the continued need, and the fact that this drive is in preparation for the holidays, we thought is best to still hold the drive.

Of course we understand that some people may not be able to donate to this drive. Thank you for supporting the pantries when you can. As I'm sure all of you have noticed as well, groceries have continued to rise in cost making both the need greater and the sacrifice of donating greater and more difficult.
