## St. Charles Council #2084

Last week 3 of us were up at Mackinac Island for the Knights of Columbus Michigan State Convention. Each year I'm impressed by how many people in our state are committed to their faith and choose to express it via membership in our order, How much we accomplish, and particularly, how many areas we lead the country even though we aren't a big state. A few leaders from Canada were also invited to see how things are done in Michigan and so we could show our support for our neighbors.

This year I had the privilege to be voluntold to the audit committee for a second time. This means I was part of the group that reviewed the State Council finances. I was very impressed with their contributions to centers that care for those with disabilities, pregnancy centers, Catholic Schools, and the education for Seminarians.

Lastly, as always, a highlight is getting to hear from both our archbishop and our bishop on how grateful they are for the work that we do, but also the areas they will be calling on us for in the months ahead.
